Module 7: Reports and Dashboards Assignment - 1

Tasks To Be Performed:

1. Create a tabular report for the Leads object.
2. Create a summary report for the Opportunity object using the average function.
3. Create a matrix report for the Opportunity object with dimensions as Stage and Amount.
4. Create a joined report for Cases, Accounts, and Opportunity objects.
5. Create a custom report type named Opportunity with the primary object as Opportunity, the secondary object as Cases, and the tertiary object as Email. Then, create a tabular report for the custom report type.
6. Create a dashboard for all the reports that you created.
